

CHATTHADA SAINOI

IT TRAINEE APPLICANT · SOFTWARE DEVELOPER

Samut Prakan, Thailand | 095-319-4360 | chatthadasainoi@gmail.com |
LINE: smartboi417

Available full-time for co-op · Bangkok area on-site or hybrid

Scan for more information

SUMMARY

Third-year Digital Technology student at Suranaree University of Technology who turns real problems into software people use every day. Strongest on the backend (Node.js/Express, REST APIs, real-time systems, SQL/NoSQL), with frontend and mobile skills in JavaScript, TypeScript and React Native. Built the backend of a multiplayer 3D safety-training platform for an engineering client while leading the team as Scrum Master, and built alone a pharmacy app in daily use at Lotus's Chumphon. Led as student council president and startup CTO, works in English, and learns new tools fast. Seeking an IT Trainee co-op role to grow on real enterprise systems.

EDUCATION

Suranaree University of Technology — **Nakhon Ratchasima, Thailand**
Bachelor's Degree in Digital Technology (Enterprise Software / Mobile Application), Institute of Digital Arts and Science · Expected graduation Apr 2028 — 2024 – Present
GPAX 2.96 · **GPA 4.00** *in latest term (Term 1/2026)*

- Coursework: OOP & Data Structures, Cross-Platform Apps, UI Dev, Software Engineering · **A in all 4 project courses**
- Certificates: Data Engineering & Industrial Data Warehouse (BOI-STEM++, 2026) · Design Thinking in Practice (NIA & SET, 2025)

PROJECTS

AECverse — Biogas Digital Twin Safety Training (Node.js · Socket.IO · Supabase) — **Client: AE&C**
Scrum Master & Backend Lead · Team of 3 — 2025 – Present

- Multiplayer 3D platform where trainees practise biogas-plant safety together; I built the server, real-time sync and database, re-architected the codebase, added OAuth / OTP sign-in and deployed on Vercel and Railway.

Pharmacy Stock Ledger (JavaScript · Firebase · PWA) — **Solo Project**
Sole Developer · built for the pharmacist at Lotus's Chumphon, now in daily use

- Replaced the pharmacy's Excel sheet for drug expiry and return deadlines: barcode scanning (EAN-13, GS1 DataMatrix), Excel import/export and colour-coded alerts.

Mission Life · *UI Design & Frontend Developer* (React Native · Firebase · Figma) — **Team Project**

- Gamified goal-tracking mobile app: designed the screens in Figma, built the frontend and the create-monster feature.

WORK EXPERIENCE

Accepted Engineering & Consultant Co., Ltd. — **Chumphon, Thailand**
Developer Trainee — 2023 (4 months)

- Developed, tested and designed UX/UI for company systems; supported the company's metaverse platform on Spatial.io.

AWARDS & LEADERSHIP

depa Digital Startup Fund — Passed Regional Round, advanced to National Round — **depa · MDES · Bangkok**
CTO, Team Edge Innovation · DeckVance (AI slide-generation website) · Team of 5 — Mar 2025

- Planned the system architecture and features. Same project won an **Honorable Mention at SUT Startup** (as Dump Slide).

Top 10 Finalist, DGT Digital Hackathon "Hack the Research: From Paper to Prototype", SUT — Jun 2026

President, Student Council · *Institute of Digital Arts and Science, SUT* — 2024 – 2025

Light & Sound Team, Fruitopia The Musical · *SUT Acting Club* — May 2025

SKILLS

Backend	Node.js/Express, Socket.IO, REST APIs, OAuth / OTP authentication, Java (OOP)
Frontend & Mobile	JavaScript, TypeScript, HTML/CSS, SCSS, Tailwind CSS, Bootstrap, responsive web design, React Native (Expo), Three.js
Data & Cloud	SQL, Supabase, Firebase, MongoDB, Vercel, Railway
Tools	Git/GitHub, Figma, Power BI, AI coding tools (Claude, ChatGPT)
Languages	Thai (Native), English (CEFR B2), Japanese (Basic)
